Summary

Cybersecurity enthusiast with skills in networking, Linux, and security analysis. Experienced in using tools like Nmap and Wireshark to detect vulnerabilities and analyze network traffic. Eager to start a career in security operations.

Education

Bachelor of Technology in Computer Science and Engineering Galgotias University, Greater Noida; CGPA: 7.9/10	2023-2027
Intermediate (Class XII) Mahatma Gandhi Inter College, Gorakhpur; Percentage: 75%	2021
High School (Class X) S.V.M. Inter College, S.K. Nagar; Percentage: 87%	2019

Technical Skills

- **Programming Language:** Java(Intermediate) , C++, Python (Basics)
- **Web Technologies:** HTML, CSS, Java Script
- **Database:** SQL | **OS:** Kali Linux
- **Tools:** Nmap, Wireshark, Metasploit, Power BI

Soft Skills

Teamwork, Quick learner with adaptability, Problem Solving

Projects

Decentralized Certificate Verification System Using Blockchain

- Developed a decentralized certificate verification system using Java, Java Servlets, JSP, MySQL, HTML, CSS, Bootstrap, and JavaScript
- Implemented SHA-256 blockchain hashing in Java for secure and tamper-proof certificate validation
- Designed a responsive admin dashboard with authentication, session management, certificate upload, and verification modules
- Integrated MySQL database using JDBC and deployed the application on Apache Tomcat server

Network Traffic Analysis using Wireshark

- Analyzed network traffic for HTTP, DNS, and TCP protocols
- Identified suspicious packets and abnormal activity patterns
- Investigated potential threats through packet-level inspection

Internship

Full Stack Web Development Intern	June 2024
--	-----------

EduSkills

- Engineered and perfected the front-end using HTML, CSS, Java Script.
- Built and maintained back-end functionalities using NodeJS, and MongoDB, reducing API response.
- Successfully delivered 2 full-stack projects within deadlines, contributing to increase in overall project efficiency.

Certifications

Deloitte Australia Data Analytics Job Simulation on Forage	Jan 2026
Full Stack Web Development Intern: EduSkills	June 2024
Tech Nova Hackathon 2025: Unstop	Aug 2025
